## Disturbance Calls

In a Memorial Fund study of all line of duty death cases between 2010 and 2014, 132 cases involved officers who were attacked and killed after being dispatched to a call for service or while conducting self-initiated actions such as traffic stops. Disturbance calls were the second deadliest call type – representing 18% of all calls where an officer was killed.

### Disturbance Calls by Sub-type as Dispatched

Despite being lower-risk nuisance calls, Disturbance Calls were the second most frequent call type that ended in an officer being killed in the line of duty.

These findings and others are detailed in the Memorial Fund's report, "Deadly Calls and Fatal Encounters."
